CHICAGO 20, ILLINOIS

Dear Friend:

Thank you for your most welcome inquiry.

It will be a privilege to help you select the right Binocular, Telescope or Riflescope to satisfy your wants.

Since 1936 UNITED BINOCULAR CO. has specialized in selling binoculars by mail. We carry over 100 different binocular selections (the finest from 3 continents) and offer you a written 30 Day Free Trial Guarantee on every purchase you make from us.

This means, if you are not absolutely satisfied with your purchase, you may return, any time within that Free trial guarantee period, your purchase for either an exchange or a full refund of every penny you paid UNITED. Fair enough?

We know it is, for much of our business comes either from satisfied customers, making additional purchases, or from friends of theirs to whom they recommended UNITED.

If you are buying a binocular for the first time, you will want to read every word of our Unconditional Guarantee reprinted below. It is your protection. UNITED'S tremendous selection, economy pricing and willingness to stand in back of every optical piece sold is why UNITED is known as "America's Leading Binocular Retailer."

Whenever in Chicago it will be a pleasure to have you visit our display sales rooms directly across the way from beautiful Evergreen Park and examine glasses in which you have an interest.

If you need your binocular rushed immediately to you see our Air Mail shipping service (Page 24). When ordering use the enclosed handy order blank and postage paid envelope.

Cordially yours,

L. J. Thomas, Executive Director
UNITED BINOCULAR COMPANY

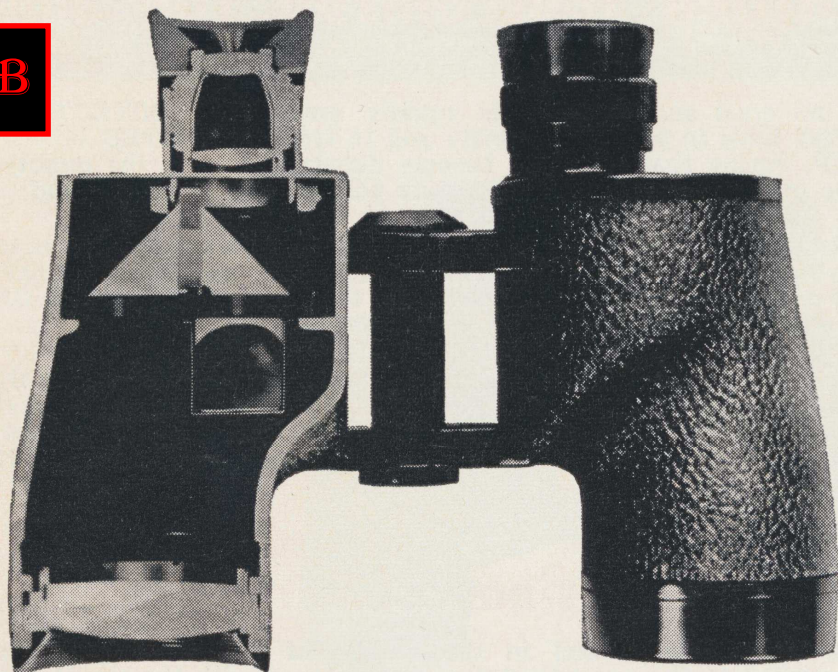

Unconditional Guarantee!

BUY-TRY any binocular shown in this catalog for 30 days (one full month) **AT OUR RISK AND EXPENSE.** If not completely satisfied in every way, return for an immediate, unquestioned refund of every penny you paid us!

When Choosing a BINOCULAR

MB

Cross section of our Precision Binoculars showing how prisms are set on metal shelf and firmly held into position with metal bands.

is that objects viewed will appear seven times larger than when just viewed by the naked eye. Therefore, the larger the first number the greater the magnification. The SECOND number, the "35", is the measurement in millimeters of the diameter (width) of the front (large) objective lens. Example: Since "25" mm are equal to approximately one inch the figure "35" would indicate the front objective lens would measure approximately 1½ inches across. The larger the number, at a given power, the more light gathering capacity and the greater the brilliance and sharpness of detail of the object you are viewing. All UNITED specifications of power and light transmission are twice triple checked for absolute accuracy.

FIELD OF VIEW

is what you see through your Binocular from right to left or left to right at a given distance. All UNITED "field of view" specifications are given at the recognized standard of 1000 yards. Therefore, our listing of "field of 375 feet" means that at 1000 yards the width of your vision is what you would be able to see at 375 feet.

COATING BINOCULARS

Because there have been so many exaggerated claims of superiority for "coating" binoculars that have been deliberately misquoted to confuse the buyer and are not fair to the buying public, UNITED wishes to point out these important facts:

1. What Coating is
 2. The Value of Coating
 3. The EXTRA EXPENSE to the buyer for Coating.
1. COATING is an application of a transparent surfacing of magnesium fluoride.
 2. COATING simply reduces internal light reflections which cause annoying "flares" and "ghost images."
 3. COATING today costs only a few dollars extra per binocular. Mass production methods have made this low price possible. Coating assures you satisfaction and increased binocular enjoyment and binocular efficiency. **Mr. Jim Mitchell**, Editor of **HUNTING & FISHING** recently wrote to us: *A neighbor, an airplane pilot, just recently purchased binoculars—without coating—and when he compared them with your UNITED Binoculars he was certainly an unhappy individual.*

BE SURE THAT

The Binocular you buy is sold by a reputable firm—a firm that stands fairly and squarely in back of the binocular you purchase. A firm with a reputation of binocular "Know How," Dependability and Fair Dealing. UNITED has served over 1,100,000 folks and established the UNITED 30 DAY MONEY BACK GUARANTEE offer in 1936!

WHAT 7 x 35 MEANS

The FIRST number, the "7", designates the power of your Binocular. It means your binocular will bring objects you are viewing 7 times closer to you. Or, another way of saying it

BUY UNITED AND SAVE

UNITED BINOCULARS COME FROM 3 CONTINENTS

UNITED customers are universal and their needs equally universal. UNITED'S requirements are stringent. They have to be, for we invite you to try your UNITED binocular purchases for 30 days. IF, during that time you become dissatisfied as to the quality, workmanship, performance or price paid, simply return your purchase for a full refund.

Our suppliers in all parts of the world are alerted to the fact that binoculars that bear the UNITED "Seal of Quality" etched into their frames have to meet the above requirements. Regardless, of where a UNITED binocular comes from the same GUARANTEE OF SATISFACTION applies. **You must be satisfied.**

Time after time UNITED has pioneered in introducing to the buying public an entirely new optical innovation at a popular price. UNITED pioneered in introducing Pocket Binoculars; Two-in-One (interchangeable lense) binoculars; Midget Telescopes; Microscopes; "Whisper Weight" high powered binoculars; economy priced Riflescopes and Spotting Scopes; Ultra Wide Field Binoculars; etc., etc.

CENTER FOCUS VERSUS INDIVIDUAL FOCUS

CENTER FOCUS means there is a focusing wheel in the middle of your Binocular eye bridge which allows you to manipulate the eye adjustment for distance with the tip of one finger. INDIVIDUAL FOCUS means you focus for distance by first adjusting one eyepiece and then the other. The discussion as to which system is more efficient will rage on for generations. Both have their fine points, with our opinion being that it is a matter of PERSONAL PREFERENCE as to which will give YOU the best results.

30 DAY MONEY BACK GUARANTEE

UNITED'S Brand New binoculars are "bargain priced." Compare their quality of workmanship, materials and performance with other firms' binoculars and prove UNITED'S Money saving prices for yourself. Since 1936 UNITED has sold binoculars on an unconditional money back guarantee. Buy-Try any United product for 30 days (one full month) and if not completely satisfied, return for an immediate unquestioned refund. UNITED wants above all things, your good will and confidence. It has been Quality Merchandise Priced Right plus Fair Treatment that has made UNITED "AMERICA'S OUTSTANDING BINOCULAR RETAILER."

WHICH BINOCULAR SHOULD YOU BUY?

Your choice first should be a glass made by a quality manufacturer, sold by a reputable dealer. Decide for which purpose you will mainly use your pair. UNITED'S pricing policy makes it possible for you to enjoy several pair for your every need.

POCKET BINOCULARS For when size is an important factor. UNITED OFFER 6X, 7X and 10X, precision made glasses you can slide in and out of your pocket on a few seconds notice. Compact, powerful glasses.

6X30 and 8X30 BINOCULARS Considered by many the "Universal" size glass for they are lightweight and small, easy to use.

7X35, 7X40 and 8X40 glasses give you the combination of MORE Power and a LARGER front lense for increased viewing pleasure. The "All Purpose" Models.

7x50, 10x50, 12x50, 15x65, 16x50, 20x56, and 20x60 conquer distance. Here HIGH power teams up with LARGE sharp, front lense that "reach out" and bring far-away objects right up to you. UNITED streamlined construction methods and new, lighter stronger all metal frames make them **EASY TO HOLD** and **EASY TO USE**.

BINOCULARS *for Every Purpose..*

for HUNTING

MB

Increase your Hunting Enjoyment and Hunting Efficiency by owning several pairs of UNITED Binoculars. Each year we carefully weigh the wants of hunters, in an effort to give them maximum Binocular Performance.

for OUTDOOR ACTION

Have MORE fun by seeing MORE. Enjoy greater fun at rodeos, sailing regattas, football games, all sporting events, etc. See minute details like facial expressions, body contacts, etc.

for NATURE STUDY

Watch distant animals as they scamper over hills, mountains and country side. Detect small animals in heavy brush. Watch colorful birds. Actually "travel miles" while sitting still by using UNITED binoculars!

PENNSYLVANIA

"With my 7x50 CENTER FOCUS UNITED Binoculars I can see the Reading Municipal Airport, now called General Spaatz Field, even reading the name Reading Municipal Airport on the side of one of the hangars. From where I stood to the airport in a direct line, I would say it was at least 3 miles. The Blue Mountains at Hamsburg, 18 miles away, were very visible with the 7x50. . ."

C.H.P.

FAIRBANKS, ALASKA

"Enclosed find my check, send me a pair of 16x50 binoculars. I purchased a pair of 6x30 glasses from you two years ago and have been more than satisfied with them. We have used them during the winter and the hunting seasons and have bagged our moose both years. If the 16x50 are as good as the 6x30, I will be more than satisfied."

A.K.H.

VIRGINIA

"I just returned from a "Chuck" hunt and I wish to tell you that your 7x35 binoculars are really wonderful. I have compared them with glasses costing much more and find them to be a real value."

C.R.P.

GREEN RIVER, WYOMING

"During the last elk hunting season here in Wyoming, I used one of your 7x50 Binoculars (a friend's) and I was well pleased with it. I am enclosing my check for the 7x50 Binoculars . . ."

C.E.T.

CONNECTICUT

"Received the 16x50 Binoculars . . . I am extremely pleased and satisfied with them for they are much more than I expected . . . I have never been dissatisfied with any pair of binoculars that I have purchased from you. This pair is no exception. They are as sharp and clear as any I have ever used. I can actually, under favorable conditions, spot .30 calibre bullet holes at 200 yards . . . I hope to be able to sell more of my friends on buying glasses from you. They certainly couldn't possibly do any better, if as well, anywhere else."

A.A.M.

UNITED BINOCULARS FILL EVERY WANT

PENNSYLVANIA

"I purchased a pair of German 20 Power binoculars 15 months ago. Since then I have travelled far and wide using them for hunting, sightseeing, aircraft spotting (I can clearly follow some of the highest Jet Interceptors with them) and have shown them to hundreds of Naval Officers, Tank Commanders, Military Intelligence Officers, State Police Officers, and they are all convinced of the quality and the tremendous power and fields of view for such a jumbo glass of amazing light weight. I have given your company name and address to at least 50 people who used my 20's." C.E.R.

FIELD GEOLOGY

"The 7 Power Prism binoculars you sent me two months ago are terrific. Wonderful for field geology." H. T. III, California

OHIO

"My 7x50 was inspected by a friend of mine, a former Army Captain, who stated that this binocular was equal to, if not more distinct and lighter than the one he used for 3 years in the service. We will be sending you more business . . ." C.E.H.

UTAH

"We received the two pair of glasses ordered from you recently and are well satisfied with them. Enclosing check for \$154.80 for which please send me a pair of 8x30 wide angle (field of 450 feet) glasses and a pair of 7x35 German binoculars." W.P.B.

WASHINGTON

"The 16x50 are very good. I would not sell them for a lot more than I paid for them. I'd be afraid I could not get another pair as perfect in fine material and power. I can read the small names on ships (5 inches high) at 800 to 1000 yards." D.W.B.

CORKEVILLE, WYOMING

"Enclosed find check. Send 15x40x Variable Telescope. I recently purchased a pair of 16x50 from you and I am certainly well pleased with them. I think they are superior to many very expensive binoculars I have examined and used." T.A.

PROFESSOR JOHN F. LEWIS SAYS

"The 7x50 Glass came through in fine shape. Thank you very much. It is a VERY GOOD VALUE at the PRICE OFFERED. I have shown the 8x30 Glasses to a number of people and no doubt you will be receiving orders from some of them. They are tremendous values - as are the 7x50 Coated glasses you offer also. I saw one of the 7x50 Glasses in the hands of a bird student nearly 5000 ft. above sea level on a camping trip I made this week end. He was enthusiastic about the glass, as was I after I had the opportunity to use them."

Prof. John E. Lewis,
Professor Biology
C. —, Penna.

MB

KOREAN MARINE'S MOTHER

"We recently purchased a pair of 6 power, 5 ounce binoculars for our son who is a marine in Korea and my husband was so intrigued and pleased with them I want to get him a pair as a Christmas present."

Mrs. D. L., Maryland

LONG BEACH, CALIFORNIA

"I am very much pleased with the 7x40 Binoculars I got from you recently when I was in Alabama. Please send me . . ."

C.C.C.

CALIFORNIA

"Last fall I purchased a 7x50. I am well satisfied with it. Send a 7x50 to . . ."

H. W. H.

ARIZONA

"The 20 Power German are the nicest binoculars I have ever owned. Neatest looking case . . ."

QUALITY SELECTION FROM THREE CONTINENTS

UNITED'S LUXURY BINOCULARS

THE GOLDEN EAGLE BRAND

MB

MAGNESIUM

UNITED'S finest, of our superb line of brand-name binoculars, is our "Golden Eagle" series. ARISTOCRATS of the binocular world. You instantly recognize, once you see a "UNITED Golden Eagle" brand glass, that you have in your hands a binocular that invites comparison, comparison with others as to appearance, quality and performance. Put them to every rigid test, they are in every sense "true champions."

Feather light with "whisper weight" bodies made of recently discovered, expensive **MAGNESIUM** giving them greater strength and durability yet, easy to hold for hours without fatigue and with an ease of focus you have always wanted.

Streamlined for an even surer grip and a neater, natter, appearance.

Center Focus for instant finger tip adjustment. Provide individual focusing as well of their right eye piece.

Prisms precision locked into place on sturdy metal shelves, with durable metal "spring" bands for lasting, trouble free, collimation and alignment of optics. It cuts the possibility of damage, because of droppage, to a bare minimum.

United Golden Eagle Seal of Quality is etched into their handsome frames, your written guarantee of satisfaction, because they are made to rigid UNITED REQUIREMENTS by skilled optical craftsmen in Japan.

Uni-Coated means all optical surfaces are coated with magnesium fluoride to lessen disturbing reflections, increasing the light transmission, giving users brighter, sharper, crystal images at all distances.

Achromatic Lense are used in each UNITED binocular for crisp, razor sharp viewing. It does away with color fringes or "rainbow" hues at the edge of the viewing area.

Durable, handsome cases give UNITED "Golden Eagle" binoculars ample protection whether carried over the shoulder, or on the floor of your car. Riveted at all key points, sewn for extra security at the respective pressure areas. Plush lined cases have "Sure Lock" fasteners for safety in carrying.

SPECIFICATIONS — Read them. They tell much. ("WHISPER WEIGHT" MAGNESIUM FRAMES!)

Best Binocular

"The best binocular I have ever used regardless of price."

Martinsburg, W. Va.

Best Ever Seen

"I recently received 2 pair of Wide Angle Binoculars from you—a 7x25 525 ft., field and a 7x35 578 ft., field . . . I am very proud of these binoculars. In fact they are the very best I have ever had or seen . . . I have a friend who is an active Outdoor Man and Rifleman and a recognized authority in this section on optical instruments. I showed him these and asked him to compare with other instruments at hand. After this comparison he said they were far superior in light, clearness, and definition to any glass he had examined. He was especially impressed with the performance of the 7x35, 578 ft., field model . . . my friend will recommend these to his local hiking club . . ."

G. W. F., North Carolina

"Magnesium," one of the world's great metal discoveries, is **lighter** and **stronger**. Because of this amazing New Metal, UNITED felt obligated to put the finest of their craftsmen in Japan to work, to make a precision, scientifically ground, optical system worthy of being encased in Magnesium. Here is our answer. In addition, these excellent 27½ ounce binoculars are perfectly balanced streamlined for easiest handling. They are Center Focus with usual individual Focus Right Eye. Water and Dust resistant. Needle sharp images at all distances.

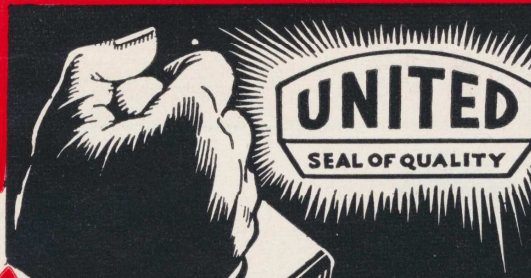

Heretofore, Magnesium Binoculars were most expensive. UNITED'S tremendous buying ability permits us to offer you this exceptionally fine glass, with plush lined leather case and straps

It used to be, when a sportsman wanted a high powered binocular, he had to put up with a heavy, clumsy binocular. High powered glasses were made with heavy metal frames for durability. They weighed as much as 5 pounds each. Good glasses, but extremely difficult to hold steady for any appreciable length of time. In addition, their frames were normally "Squared" and therefore, it was hard to keep objects in focus for they balanced poorly in a user's hands.

However, **NOW** with today's lightweight-yet-sturdy metals and with modern streamlined methods of construction **UNITED** is pleased to offer high powered "**WHISPER WEIGHT**" binoculars that are truly **EASY TO HOLD** and **EASY TO USE**.

Our 10 X 50 is 6¼ inches high with a field of 240 feet at 1000 yards. 12 X 50 - 7" high — 240 foot field. 16 X 50 - 7" high — 204 foot field. Each weighs only 27 ounces!

FINE VALUES — ECONOMY PRICED

To assure you of securing bright, sharp, clear images in these high powered, zeph'r weight binoculars, each and every surface of prisms and lenses are fully coated with magnesium fluoride. In addition, they are of course Achromatic, with color corrected lenses and are made water, dust resistant. Made in Japan, these precision constructed **UNITED** Binoculars are produced of quality materials by skilled craftsmen and are unconditionally Guaranteed. These three center focusing binoculars with individually focusing right eye pieces come with handsome plush lined, leather cases and straps.

"I received the 12x50. Clear and razor sharpness at close and long distance."

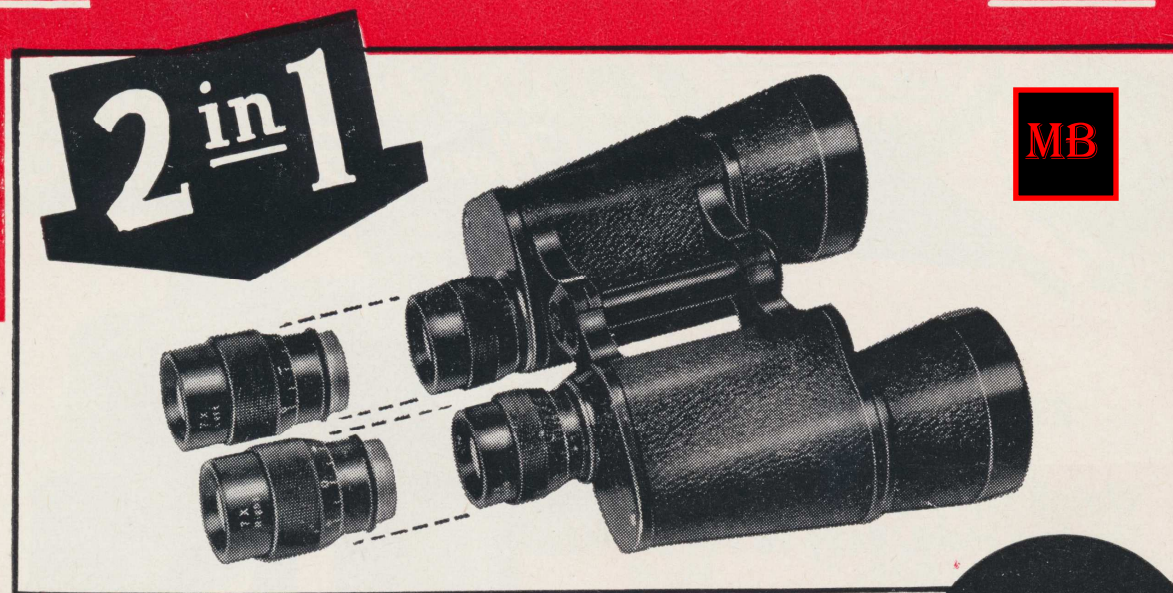

A. N.

. . . and NEW YORK expresses "The 10x50 I bought two years ago are a fine pair of binoculars."

YOU MUST BE SATISFIED

Two BINOCULARS IN One!

7 x 50 and a 12 x 50 IN ONE BINOCULAR

\$59⁵⁰

With a twist of your wrist you can change a superb, brilliant viewing 7x50 Binocular into a Super Powered 12x50 Glass!

You save one half of ordinary costs for you actually get two binoculars for the price of one! You get double performance, yet carry with you only one binocular.

Use 7x50 for general all purpose viewing

Use 12x50 when Super Power is wanted

It is simple to do . . . here is how

This superb UNITED Binocular discovery comes with TWO sets of eye pieces.

When you want 7 Power you simply screw-in the eye pieces so marked. The same is true when you want 12 Power. Takes seconds to make the switch. We include an additional genuine leather carrying case for the extra eye pieces you are not using! Comes with plush lined leather case and straps. Fully hard coated!

This perfectly balanced pair of UNITED Binoculars are made in Japan, precision made in every detail. At 7 Power they provide a 372 foot field at 1000 yards and at 12 Power have a field of 288 Feet! 7" high. Weigh 33 ounces. Water-Dust Resistant.

READ HOW THE EXPERTS PRAISE THE 2 IN 1

DUPLEX BINOCULAR

"UNITED have sent us for examination one of their 2-in-1 or Duplex binoculars, something rather novel in the field. While we haven't seen this system used before to any great extent in prism binoculars, it is quite common in spotting scopes, many of which are fitted for interchangeable eyepieces."

American Rifleman

TWO BINOCULARS IN ONE

"Patrons will be interested in binoculars shown by United Binocular Co. of Chicago. The set provides for a 7x50 all-purpose binocular and a 12x50 stronger binocular for distance viewing. The user simply screws in the power eye-piece desired. Two cases are provided. One for the extra eye-piece."

The Military Market

DUPLEX BINOCULAR

"With the twist of the fingers you transform an all purpose 7x50 marine-type binocular, with its brilliant illumination, into a distance reaching, mountain scaling, long range, all-powerful 12 power prism binocular." **Sports Trade Magazine**

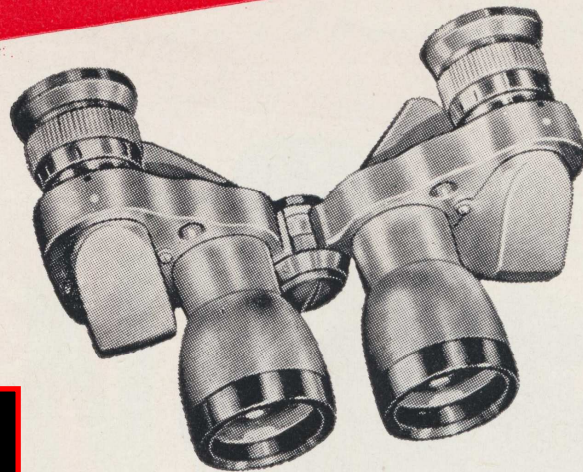

"I thought the two in one binocular a good buy for the money and I can recommend it to inquirers who want a glass in that price range." **Jack O'Connor, Noted Sports Editor and Authority.**

"Something new in binoculars is the Dual-Vue just announced by United Binocular Co. This is a fine 7x50 marine type binocular which can be converted in seconds to 12-power for extreme long range use. To make the change it is only necessary to unscrew the eyepieces being used and replace them with another set." **American Legion Magazine.**

WHEN YOU THINK OF
BINOCULARS...*Think of*

UNITED

SEAL OF QUALITY

MB

BINOCULAR CENTER OF AMERICA

Your Binocular Dollars are important, don't risk them on untested brands. Get ALL you can for your money — BUY UNITED Binoculars.

UNITED has used an absolute 30 DAY MONEY BACK OFFER for every binocular they sell and has made that offer since 1936! UNITED'S "Best-By-Test" binoculars, to supply your every want, come from 3 continents. UNITED'S large stocks and central location assures you quicker delivery no matter where you live.

UNITED Binoculars must first pass rigid field tests before acceptance. Every possible factor is weighed . . . Quality of Construction . . . Field of View . . . Weight . . . Precision Grinding of Lenses . . . The way a Binocular Handles and Balances in the hand, etc.

Meeting rigid field tests, the binoculars are then sent to Binocular Experts for their candid opinions. Assuming both tests are satisfactory the specifications are then sent to leading binocular manufacturers to discover if the accepted binocular can be mass produced to retail at popular prices.

Assuming they have met every rigid UNITED requirement the UNITED "Seal of Quality" is etched into their frames, assuring buyers that if not satisfied in every possible way they can return them after a liberal 30 day Free Trial Period for an immediate unquestioned refund of every cent paid for their binocular purchase. That is why we say — **When You Buy Binoculars — Protect Your Investment — Buy UNITED.**

Another UNITED First

FOR VIEWERS

FOR HOBBYISTS

FOR HUNTERS

FOR SHOOTERS

A compactly made, precision machined Prismatic Spotting Scope. Quality construction throughout. Threaded metal fittings. The Scope itself weighs only 6 ounces. Is only 8¾ inches in length. The price of \$24.95 complete with tripod, makes it an outstanding buy for those who want top results at a reasonable cost.

Has a luxurious black crackle finish, handsomely trimmed with chrome. Comes with safety dust cap which screws into position over large front lens when not in use.

107½ FOOT FIELD AT 1000 YARDS

Not a mere telescope, but instead, just like an expensive Binocular, PRISMS ARE USED to eliminate distortion, give a greater field of view and assure the user sharp, detailed definition at all distances. The Vital surfaces of all lense and prisms have been 100% COATED for brighter, clearer images.

The Uni-Tripod is manufactured of sturdy, durable, "whisper weight" Duralumin giving you a minimum of bulk and weight. Tripod is engineered with swivel head so you can sight up, down, across or at any angle you choose. Made in Japan to rigid UNITED REQUIREMENTS by skilled optical craftsmen which explains why the quality is so high and the price so reasonable.

YOU BE THE JUDGE

UNITED'S business is based on pleasing the customer. Nothing is spared to assure giving you the customer absolute satisfaction. UNITED realizes that a good per cent of sales are satisfied repeat customers and from people they in turn refer to us. UNITED'S tremendous volume is based on giving **More Quality at Lower Prices.**

24 YEARS OF BINOCULAR "KNOW HOW"

You want, and should insist on getting, the **BEST-BY-TEST** Binocular for your purpose. UNITED has served over 1,100,000 sportsmen the country over. Each year more and more UNITED DEALERS are being added to our list. We **Know** what sportsmen require. We hear it from our dealers and every year thousands of outdoor enthusiasts tell us in person at our Chicago display room, or tell us in writing of the good results they have been getting with their UNITED Binoculars. UNITED anticipates needs and fills the wants of the most discriminating user. UNITED has for years been a pioneer in introducing new optical achievements to the American public. If you have any special problem please feel free to write to us.

Sold to Leading Institutions

Colleges from coast to coast use UNITED Binoculars. All colleges require **QUALITY AT THE RIGHT PRICE.** That is why we at UNITED so value their repeat sales. A governmental department tested a pair of UNITED Binoculars, found them such a value they bought forty additional pair for an expeditionary trip! This should not be construed as a governmental endorsement of UNITED Binoculars for that is forbidden but it does show **QUALITY AT THE RIGHT PRICE.**

Over 100 Models From All Over the World

You find over 100 models listed in these catalog pages. Hundreds of other makes, powers, etc., were tested and rejected. UNITED'S test include binoculars from United States, Japan, Germany, Switzerland, etc. Those shown are the "**BEST-BY-TEST**" **PRICED RIGHT** binoculars we found. By selling only the best buys UNITED has become "America's Leading Binocular Retailer."

Leading Publications Approved

UNITED binoculars are regularly sent to outside sports authorities for their impartial, unbiased comments. Such outside opinions from unprejudiced experts provide added protection for UNITED customers. Ask any leading outdoor magazine about UNITED—they know.

United Seal of Quality

Make sure the binocular you buy bears this seal. It is your assurance of top optical performance. It tells you that the binocular has satisfactorily met every UNITED test for size, power, weight, performance, and price. Don't be satisfied with less or pay more. **BUY UNITED—AND BE SURE!**

MB

From *AUTHORITIES* who *know* **BINOCULARS**

American Rifleman official publication for the National Rifle Association recently tested 3 of our binoculars under average field conditions and reported "Featherweight—the optics are very good—moderately priced—will serve general purposes—a good buy for the money . . ."

Sports Afield "Colonel Townsend Whelen, our camping editor thinks very highly of your binocular. It so happens he had a reader query on them and we are using his favorable reply in this department. . . ."

American Legion Magazine describing a UNITED binocular, wrote "Now you can get close-up views of sports events, wild life, etc., Thanks to radically different design, etc., offered by UNITED, Chicago.

Southern Governor of one of the leading states in America has repeatedly bought binoculars from UNITED.

Warren Page, Shooting Editor, Field & Stream, "From what experience I have had with them, there is no doubt but what both sets of glasses (7x35 and 8x40) are of excellent quality both optically, mechanically"

Hunting & Fishing, publisher, L. F. McClure, tried our UNITED "Vest Pocket" binoculars, immediately liked them, and bought a pair for his personal use.

National Advisory Committee for Aeronautics specified, "United Binocular Co.'s binoculars or fully equal."

Ted Kesting, Editor, Sports Afield, "Colonel Whelen, Camping Editor, thinks very highly of your binoculars"

Western Sportsman Magazine, "The UNITED people are making one dickens of a good price on a 16x50 featherweight glass that ought to be down a sportsman's alley. Looks like a good buy to me."

UNITED GUARANTEES YOUR SATISFACTION

30 POWER! WHISPER WEIGHT 8½ OUNCES

8½ ounce Whisper Weight 30 Power Telescope for instant-on-the-spot focusing. Ideal for indoor, outdoor sports, vacationing, trips, long distance spotting. Pocket size — measures only 7" closed, 14½" open. This fine UNITED telescope has been COATED with applications of magnesium fluoride to the inside surfaces of the vital front achromatic lens to assure you brighter, sharper images. NOT A CHEAPLY MADE TOY TELESCOPE! But a precision machined (threaded fittings), precision ground achromatic telescope that invites comparison. Bears the famous UNITED "Seal of Quality." Made in Japan. All metal. Comes Complete with Handsome Carrying Case.

\$9.95
NO TAX

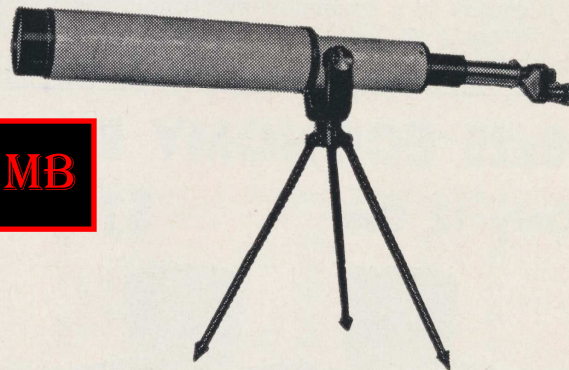

10X — 2½ OUNCE POCKET MODEL — NO CASE — \$4.99

50 POWER Prismatic Scope

BRINGS OBJECTS 50 TIMES CLOSER!

What you have always wanted. Tremendous power (brings everything 50 times closer) and a giant sized objective lens (50 MM—over 2" across for brilliant viewing!) and at a sensationally low price! Weighs only 20 ounces! Only 18" long! 30.5 feet field at 1000 yds.! Not a mere Telescope. Instead just like an expensive Binocular it uses Prisms to eliminate distortion and to provide sharp crisp, detailed images at all distances. AND . . . the Vital inside front and rear Achromatics have been COATED for brighter, clearer images. Luxurious, glistening ivory finish with beautiful chrome trim.

The Uni-Tripod is made of featherweight Duralumin, permits sighting up, down or across at any angle you want. Made in Japan by skilled optical craftsmen which explains why the quality is so high and the price so low. Complete outfit including the Prismatic 50x50 spotting Scope and the Uni-Tripod **\$34.95** sent postpaid — TAX FREE for only _____

7x35 MONOCULAR

\$29.95

Measure only 2½x4¾". Weighs 8½ ounces! A Monocular is HALF of a PRISMATIC Binocular. An ideal glass for hunters, sportsmen, vacationers, etc., because of its compactness, size and weight. Made in Japan. Easy to carry and simple to use with one hand.

Fine Leather case and straps.

7x50—\$32.95

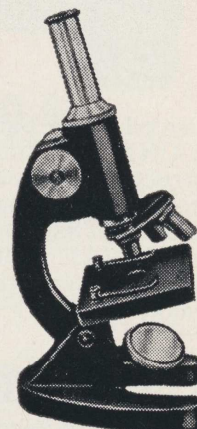

There is NO Federal Tax on Monoculars.

100, 200, 300 Power Turret MICROSCOPE—\$14.95

Amazingly precision construction. Mass Production and low overhead makes this low price possible, for now beginners, students and adults can thrillingly explore the microbe world, study plant life, the mysteries of inorganic matter, etc. See the structure of human hair, the wonders in a simple drop of water. Examine finishes of metals.

Has 100, 200, and 300 power objectives, each on a rotating nose-piece, so you can easily change the power. Made of metal. Swivel at base for inclined viewing. Plano substage mirror illuminates the slide. Has real rack and pinion gears for easy focusing. Comes complete with hardwood case. Made in Japan. There is NO Federal Tax on Microscopes.

CENTRALLY LOCATED FOR FASTER SERVICE

SIX TELESCOPES IN ONE!

15 TO 40 POWER VARIABLE TELESCOPE

To change power simply turn power tube with fingers to "click." Indicator shows the power you now have. Eliminates guess work. Rust-proof, trouble-free, chrome tubes. Weighs only 18 ounces, 9" closed, 27" extended. Made in Japan. Genuine leather case included.

Use 15x—for nearby objects at wide angle.

Use 20x—for target spotting scopes.

Use 30x—for long distance, terrestrial view.

Use 40x—for celestial and astronomical observation.

USERS PRAISE THEM

"Just received your 15x-40x Telescope. It is tops. I like the scope fine."

I. E. J., Alabama

"With a steady scope, a pair of 20/20 eyes, I could easily read my one and one eighth inch diameter watch at the distance of 400 feet, on the forty power range."

A. I., California

"I am having top pleasure to see objects jump up to me 15, 20, 30 or 40 times closer. My variable is a great scope and I am certainly glad I purchased it from UNITED. Your company really does sell at lower prices and higher quality."

R. K., Ohio

"They are great here in Korea."

Corporal, J. O. M.

"Your variable Telescope is satisfactory in every way. It is all the literature says."

D. H., Indiana

Carries UNITED "Seal of Quality"

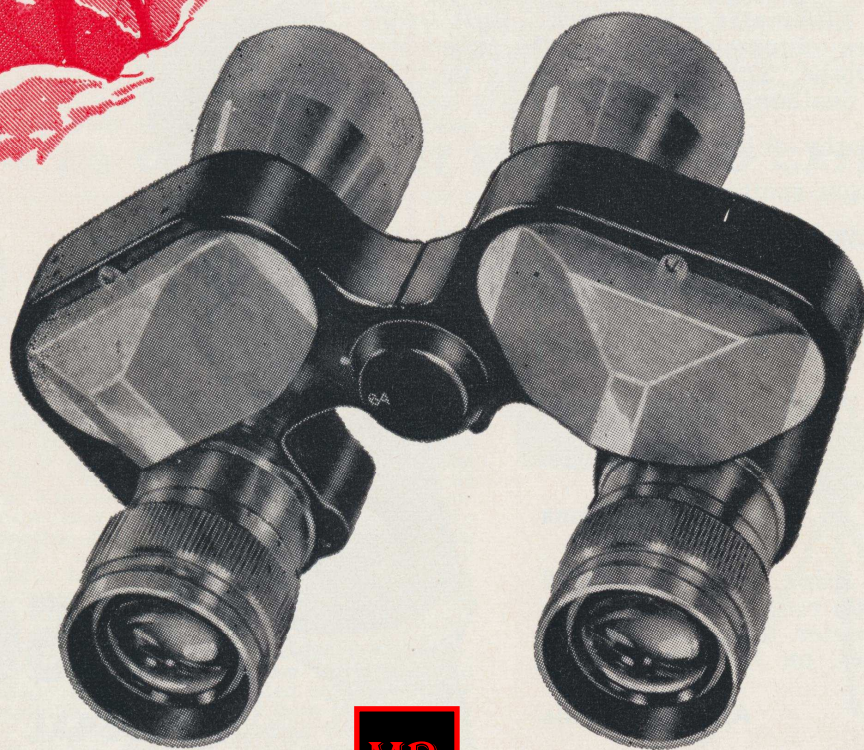

for these good reasons

1. Images are equally sharp and clear at all powers.
2. Power tubes are graduated in click stops with intermediate markings to permit instant fixing of any selected power.
3. Inner surfaces of LENSE coated for greater brilliance of image.
4. Knurled ring on eye piece draw-tube makes focusing easy and fast.
5. At 20 Power you will clearly see .22 bullet holes. It is sharp!

7 POWER WIDE ANGLE POCKET **525 FOOT FIELD!**

In the creation of UNITED'S New 7 Power WIDE ANGLE Pocket Binocular, our Optical Craftsmen achieved what seemed to be the impossible. Experts said it could not be done, that bulk and weight were an optical necessity in order to create a WIDE ANGLE Pocket Binocular.

Our Optical Engineers spent many months testing, checking, creating and rejecting ideas and models until the day finally arrived when a model was created to meet rigid UNITED requirements.

This fine quality 7 Power Pocket WIDE ANGLE Binocular measures only 3 x 4½ inches and weighs but 15½ ounces. It has 25 mm. front lense and gives a WIDE ANGLE Field of 525 feet at 1000 yards; Lustrous satin chrome with glossy black trim. Comes in handsome plush lined case, complete with straps. Individual Focus. 100% hard coated!

\$69.50

NOW AVAILABLE IN MAGNESIUM—ONLY 39½ OZS!

The wanted binocular. Tremendous power, brilliant illumination, has light transmitting power of approximately 19—almost as much brightness as a 7x35! Wide field of view. Streamlined designing plus lighter, stronger metals makes this 15 power glass easier to hold and use than many glasses half its power! Water-dust resistant. 8½"x9" — 39½ oz.

GIANT FRONT LENSE ALMOST 3 INCHES ACROSS

Objective lenses are giant size—65 mm. All surfaces of lenses and prisms have been 100% COATED for crisper, sharper images — made by skilled optical craftsmen in Japan. 30 DAY NO RISK TRIAL. Return for refund if dissatisfied. Center focus with individual focusing right eye piece. Genuine leather case, straps, included.

"I have given my 15x65 binoculars test after test for long range use, such as spotting Jet Planes etc. These are quickest focussing glasses I have ever owned and pin-point, ultra sharp, at ranges to the moon. At 200 ft. from top of mountain I could see Ephrata, 32 miles away and air was hazy. My old 20x50 could not do this. Thanks for selling me such a perfect glass."
Mr. William T., Ephrata, Penna.

Federal
Tax

26" long! Weighs 34 oz. 60 mm (2½" across) front objective lens! Ordinary spotting scopes are only 30 mm to 50 mm. Has 7 lens including Achromatic objective and a Kellner rear ocular lens! Made of aluminum tubing for light weight with Chrome plated, brass inner tubing for snug, yet slide free ease of handling. UNI-TRIPOD made of featherweight Duralumin and has two screw set-up take-down construction. Permits sighting up, down or across at any angle you want. Made in Japan. Ideal for Rifle Range checking, Sports, Astronomical Observation, etc.

40 POWER 60MM PRISMATIC SPOTTING SCOPE

Don't confuse. **NOT** a telescope but like an **EXPENSIVE** binocular it uses **Prisms** for less distortion, **more** width of field, **greater** clarity. Featherweight aluminum construction 20" long. 63 ft. field! Tripod is 22" closed 57" extended. Ideal for astronomical use as well. Quality manufactured in Japan to rigid **United** requirements of sturdy lightweight aluminum. The inner tubing is made of brass and chrome plated to give you slide-free ease of handling. For **MORE** light to give you crisper images, the front lense are a giant 60 mm which is a bit over 2½ inches across! Achromatic! This is a **Prismatic** telescope.

**Ideal For Close Up And Long Distance Spotting
As Well As Astronomical Viewing**

Use for close up as well as long distance viewing. Gives field of view from left to right of 63 feet at 1000 yards. Tripod is sturdily constructed of wood and metal and is 22 inches closed and can be opened to any height up to 57 inches. **NO FEDERAL TAX** — Hand-some black crackle finish. **BOTH \$39.50**
Scope and Tripod

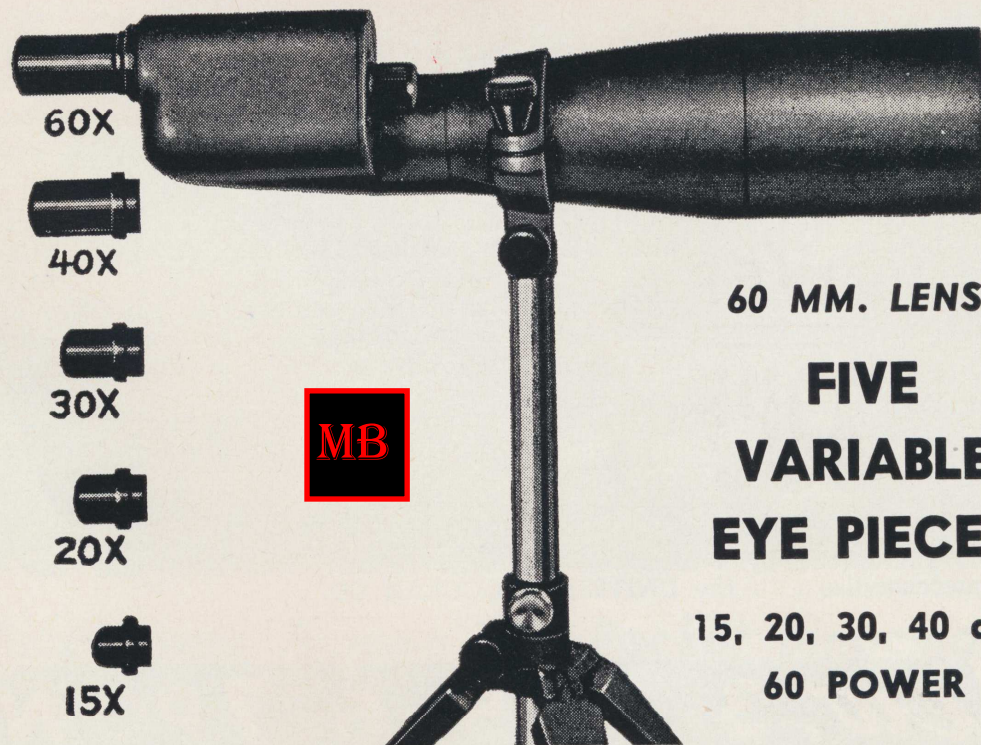

"The 40x60 Scope is well mounted, powerful and gives bright image. I can see a cigarette in a man's mouth more than 2 miles away. I have owned 9 telescopes in my life and this 40x60 beats anything I have looked through for the price. I find it to be the most complete telescope I have owned." Mr. Claude W., Draper, Va.

★WINDOW SAMPLES. This is merchandise placed in our display case brand new. It has not been used in the exact sense of the word, although the merchandise has been handled by customers. In the case of the Riflescopes there may be some marks on barrel from rifle mounts, for these were mounted displayed on rifles.

★★SHOPWORN. This merchandise has received scuff marks on cases etc., for it actually is new, but in the process of being stored in inventory it has become shopworn.

★★★USED. This merchandise has been used. Binocular frames and the cases do show use; however, the important thing is they are in A-1 working condition and will give you the same viewing pleasure as a brand new model, but they DO show use.
