Foreword to List

MB

John Barker & Co. Ltd. have a reputation which is world-wide as the suppliers of good reliable binoculars at record prices. More than 100,000 pairs have been sold by the firm over a period of 10 years and it is due to the Company's initiative that present low prices are possible.

The Binoculars in this list are cheap in no other sense except as regards price. The quality of even the lowest priced instruments are beyond question good and dependable.

The 35 years experience in dealing with these goods renders Barkers fully competent to give advice and to be of utmost service to customers and thus enabling them to get the best possible article for their purpose.

Cash is refunded if customers are not completely satisfied (4 days clear trial allowed).

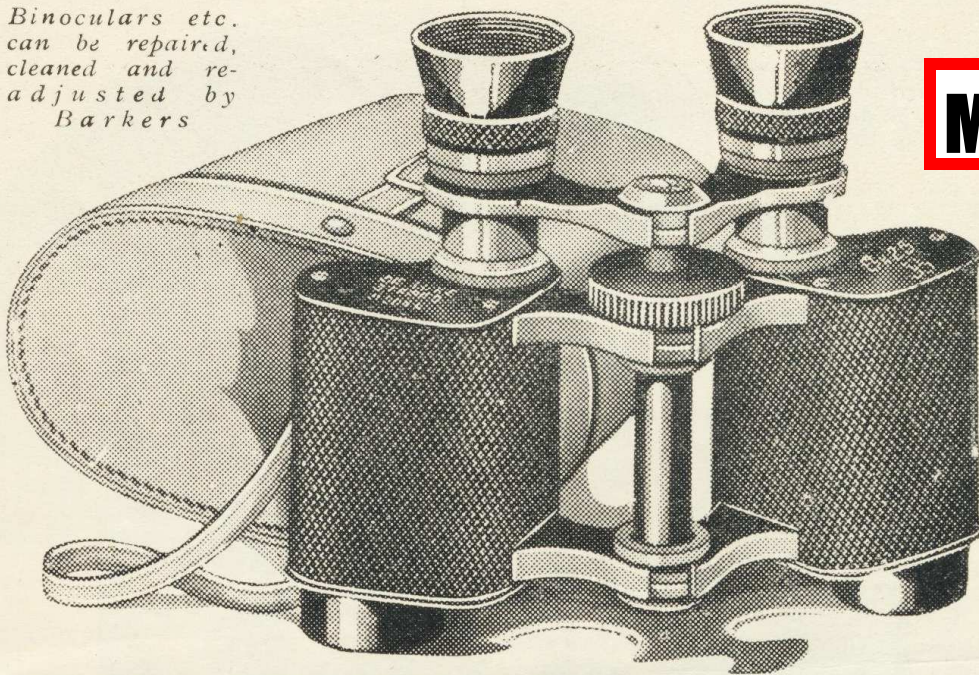

Post Orders should be accompanied by remittance or satisfactory bankers reference. Names and addresses should be very clearly written in order to avoid mistakes, and when goods are returned for any reason names and addresses should be attached, and particulars and reason for return clearly stated.

Spectacles and Eyeglasses

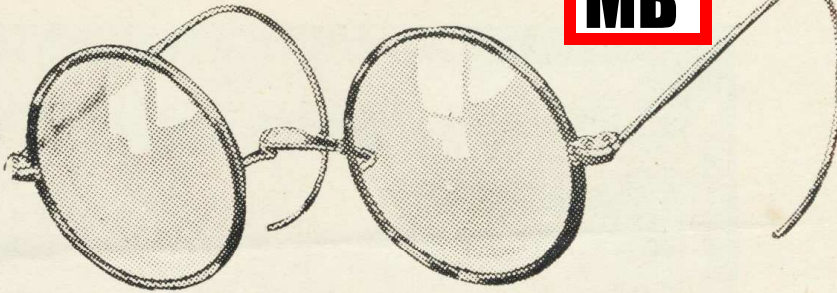

SPECTACLES & EYEGLASSES

Offered at Half Price

THIS offer also includes thorough testing of eyesight by fully qualified opticians. If desired, however, customers may bring or send their own prescriptions. Specially reduced charges will be made in cases of compound Astigmatic or Bifocal lenses.

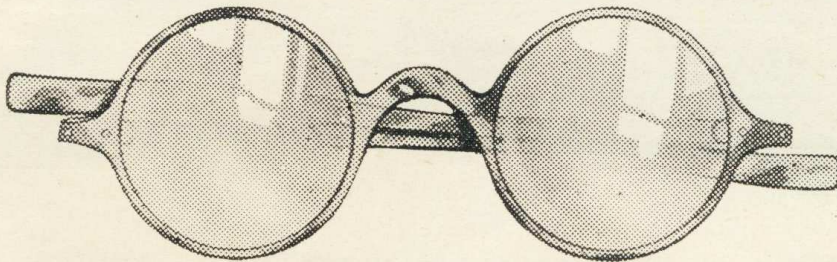

All
Fitted with
★ **MENISCUS**
Dome shaped
Lenses

Style 1 & 1a Round Eye Windsor or Pince-nez Type, the former having comfortable rolled gold sides and bridge, and the latter a simple rolled gold finger piece mounting. Rims covered "She-lite." A good quality covered spring case is included. **15/-**

Style 2 & 2a Rimless or Finger-piece Pince-nez Type, with comfortable rolled gold sides and bridge. The pince-nez style has also a neat rolled gold adjustable finger-piece mounting. Price includes good quality covered spring case. **10/6**

Style 3 Also with Meniscus Lenses

Round eye imitation tortoiseshell library spectacles, with straight sides and solid nickel joints. A good quality cloth covered case is included. **15/-**

★ **MENISCUS LENSES**

Meniscus lenses are of a deeply curved formation, giving an entire absence of the distortion usually found in the old flat type of glass. Besides this, they increase the wearers' field of vision, act as a protection from dust and wind and are much lighter and more dignified in appearance.

If unable to pay a visit, customers are invited to send for self-measurement gauge and eyesight test card (post free) for close work and reading only. Old spectacles to be sent as a guide if worn.
